## **Carlisle Development Corporation announces the release of Version 8 of its Coin Collector's Assistant.**

**January 26, 2010** -- Carlisle Development Corporation has released version 8 of its Coin Collector's Assistant inventory software.

This new version is built on state of the art technology intended to exploit newer windows platforms such as Windows 7 and 64-bit computing. It provides substantial new functionality as well as an enhanced user interface. New functionality includes cross-collection reporting, collector tools, enhanced reporting and backup options. A new PackNGo facility eases the process of transferring to a new computer.

The Coin Collector's Assistant is always shipped with the latest US Coin Database listings and now incorporates all 2010 coinage including the National Parks Quarters, Presidential Dollar and Presidential Spouse coinage. Its US Coin Database includes all US Coinage (circulating, sets, commemoratives, bullion, etc.) from 1793-present with comprehensive numismatic information, pictures and market values. Also included are Colonial and Hawaiian issues.

The Coin Collector's Assistant product line has won numerous software and numismatic awards and is the most comprehensive product line available for collectors of coins and paper money.
